## Introducing the Eclipse WEB Based Fuel Management System

**“The Eclipse gives you LIVE fuelling information,  
when and where you want it”**

### System Overview

- **Web Based (REAL TIME) Reporting**
- Interface to On Board Vehicle Tracking Systems
- Full Featured User Interface – Alpha Numeric Keyboard, Four Line LCD Backlit Display
- Choice of RFID Tag, Magnetic Fuel Card or Dallas I-Button for user ID
- Stainless Steel Enclosure
- Retrofit Option to existing systems available
- Plinth, Pump, Wall, Tank and Bowser Mounting Options
- Automated, Real Time Alarms by SMS Messaging for Fuel Theft or System Misuse
- Integrated Pump Options – Single or Dual Display

[www.cameron-forecourt.co.uk](http://www.cameron-forecourt.co.uk)

**Web Based Reporting  
Viewable Anywhere,  
Anytime !**

### Web Based Fuelling Information

- Access to data from any web enabled PC or phone, using a secure login facility
- Only Standard Web Browser Required – No System Specific software to install or maintain on site.
- Additions and Amendments have immediate effect at all fuelling locations in your network
- No Daily Polling of fuel island terminals to manage – minimum daily support.
- Software Updates and Enhancements Managed Centrally removing the need for expensive site visits.
- Unique Quick View gives simple summary of entire network.
- True Multi User System giving local and/or central data management and reporting.
- Seamless Integration with Vehicle Tracking Systems
- Seamless Data Export to Fleet Management Software
- Web Based Fuel Card Data Import

Web Based Reporting Viewable Anywhere, Anytime !

### Just Some of the Benefits

- As the system is linked directly via GPRS from the fuel island to the web site, there is no need for daily polling– all information is updated as it happens.
- Live Information gives Enhanced Security
- Because the system uses GPRS mobile technology, the terminal can send texts and e-mails directly to any nominated personnel.
- All Fuelling Data displayed immediately on the Internet
- Stock Figures are always current (Links to Tank Gauge)
- Immediate Low Stock or Overfill alarms
- Immediate Notification of Pumps Being Disabled
- Immediate Notification of Attempted use of Blocked or Stolen Keys
- Immediate Text Alarms raised on Tank Stock Theft
